

Brivo OnAir API Account Access Authorization Agreement

This document is completed by the Brivo OnAir End User (Master or Super/Senior) Administrator) to authorize the application programming interface (“API”) service for their Brivo OnAir account.

Brivo’s API service provides a means to exchange data between the Brivo OnAir application and third party applications that are not controlled by Brivo. Third party processors controlling the systems exchanging data with Brivo OnAir are referred to herein as a Brivo API Partner. It is in the discretion of the End User to enable API connections with third party systems controlled by a Brivo API Partner. This is accomplished within the Brivo OnAir user interface. Integrations to various applications can be enabled and disabled by the Brivo OnAir Master Administrator using one Brivo OnAir API connection.

All accounts in production require an API subscription (B-OA-AP-TX1) that can be quoted and billed to by your Brivo Dealer. The production API plan is limited to 250,000 calls per month.

Four steps are necessary to activate the Brivo OnAir API service:

1. The End-user provides the information requested, executes the form and returns it to brivoapi@brivo.com.
2. The Brivo Dealer issues a purchase order to Brivo for the required API service on the customer’s account.
3. Brivo enables the API feature on the Brivo End User’s Brivo OnAir account.
4. The Brivo End User activates or enables specific API connections with third party systems controlled by a Brivo API Partner.

END USER ACKNOWLEDGEMENT AND AUTHORIZATION

By completing this form, the undersigned Brivo End User hereby authorizes Brivo to provide sensitive account access to the applicable Brivo Dealer and Brivo API Partner, on the End User’s behalf.

BRIVO DOES NOT ASSUME ANY RESPONSIBILITY OR LIABILITY FOR ANY INFORMATION, COMMUNICATIONS, OR SECURITY PRIVILEGES GRANTED TO THE BRIVO DEALER OR BRIVO API PARTNER PURSUANT TO THIS AGREEMENT OR ANY ACTS OR OMISSIONS TAKEN BY SUCH BRIVO DEALER OR BRIVO API PARTNER. BRIVO MAKES NO REPRESENTATIONS OR WARRANTIES CONCERNING: (I) THE OPERATION OF THE THIRD-PARTY SYSTEM(S) TO BE INTEGRATED BY APPLICABLE BRIVO DEALER OR BRIVO API PARTNER OR (II) THE SUITABILITY OR QUALIFICATIONS OF THE APPLICABLE BRIVO DEALER OR BRIVO API PARTNER TO PROVIDE INTEGRATION SERVICES INVOLVING BRIVO ONAIR. THE UNDERSIGNED BRIVO END USER AGREES THAT BRIVO SHALL HAVE NO LIABILITY FOR, AND AGREES TO HOLD BRIVO HARMLESS FROM, ANY AND ALL CLAIMS RELATING TO SUCH INTEGRATION AND THE OPERATION (OR FAILURE TO OPERATE) OF ANY THIRD-PARTY SYSTEMS.

The undersigned Brivo End User authorizes access to and use of the Brivo API feature on the End User’s Brivo OnAir Account.
